

BABY T PLUS/ZERO

T Technology[®] inside by Ascaso.

Multi-group technology. Full PID control. It offers a great thermal stability with a high level of energy efficiency (low energy consumption) and clean and fresh water in each coffee.

Multi-group (separate) technology with PID control High professional-grade performance: Thermal stability guaranteed. High steam production.

Clean coffee. Minimal metal migration to the beverage through the use of stainless steel. Complies with European regulation EN 16889

Freshly Delivered Water. Avoiding the use of standing, constantly reheated water to make the coffee.

Energy efficiency. We deliver a 50% average saving compared with a traditional machine and 25% compared with other multiboiler machines.

AscasoApp. Total control
